 (Name of Owner, typewritten or printed)

 Applicant's Position or Title

 Owner's Position or Title

** Owner's Signature is mandatory (see Section 4.2)

4.4 Application for Review of Pumping Station Facilities - Form B

This application shall be submitted following preliminary approval of the East Brunswick Planning Board, copy of which shall accompany this application.

An application and supporting data specifying the engineering details of the proposed project will be analyzed for compliance with Authority engineering standards including provisions for orderly growth.

This form is filed after approval of Form A on all applications, and must be submitted within twelve (12) months after conceptual review approval or reapplication for conceptual approval will be required. The applicant shall specify whether phased construction is intended.

This application shall be accompanied by two (2) copies of the Engineer's Report, construction cost estimate, two (2) sets of drawings (min. scale 1" = 50'), specifications, manufacturers' data, and other material needed to permit a detailed engineering review. The Engineer's Report shall clearly define the design criteria used in connection with population, flow, layout, pumping station design, equipment selection, etc. All drawings submitted shall be the latest drawings approved by the Township and shall be kept current. Final drawings filed by the applicant shall include notations as to transfer of easements and sewerage facilities similar to the notations required under Section 4.10.

The application and supporting data will be reviewed by the Authority to determine compliance with the Authority's Rules and Regulations, applicable statutes, and projected growth patterns. Approval of this application, with conditions set by the Authority, shall be a mutual agreement between the applicant and the Authority regarding the terms and conditions for providing sewer service, including the construction or financing of off-site facilities considered necessary by the Authority.

The Applicant shall pay all permit and application fees to the Authority (see Fee Schedule), as well as applicable fees to Middlesex County Utilities Authority and New Jersey D.E.P. Permits to construct sewers and/or other structures within flood plains, wetlands and the right-of-way limits of State, County, Municipal roads and all railroads, and all other permits must be secured by and paid for by the Applicant.

The Applicant must inform and secure any necessary clearance and/or approval from any public utility involved. Proof of such notice and/or approvals shall be filed with the Authority.
